## experience

**Microsoft | Software Engineer Intern | Jun '20 – Present | Angular + Typescript + C# + Azure**

- Developing a widely demanded **end-to-end** tagging feature for the **Azure Incident Management system** currently utilized by **50,000+ Microsoft Software Engineers**
- Worked with Product Managers, Designers, and Engineers to flesh out the feature's design & experience
- Projected to **deliver each requirement** and **ship the feature** by the end of the internship

**Google | Engineering Practicum Intern | Jun '19 – Sept '19 | Java + JS + Closure + Proto Buffers**

- Delivered **2 end-to-end projects** for the **Google Admin Console Enterprise team** used by **about 20 developers** to more efficiently aid in the launch of the new product with proper **unit, integration, and UI testing**
- Determined use cases and technologies using design docs to build each project
- Met **all key deliverables** for the 12-week project in **8 weeks** with **over 30 completed code reviews**

**UC San Diego - Computer Science & Engineering | CSE Tutor | Mar '20 – Jun '20 | Python + C++**

- Tutored for upper div course **Advanced Data Structures**, teaching 200+ students on concepts such as KDTrees, Dijkstra's Algorithm, Kruskal's Algorithm, Huffman Encoding, Graph Theory, Priority Queues, & Trees
- Successfully resolved **over 90%** of tutor request tickets from students

## leadership

**EatPlatter | CTO & Co-Founder | May '20 – Present | iOS + SwiftUI + Node.js + Firebase**

- Leading development of a **scalable MVP mobile app** for a homecooked meals marketplace
- Engineered the product's architecture through an **MVVM architecture**
- Performed code reviews & delegated issues to a team of 3 on a weekly basis

**ACM Hack @ UCSD | President & Co-Founder | Apr '19 – Present | Full-Stack Web Dev + Python**

[acmurl.com/hackschoolproject](http://acmurl.com/hackschoolproject) - [github.com/acmucsd/hackschool](https://github.com/acmucsd/hackschool)

- Taught over 20 workshops with **500+ attendees** in **Full-Stack** technologies such as **node.js, react**, and **MongoDB** as well as **Python tools/frameworks** such as **BeautifulSoup & Flask**
- Developed a **MERN stack** project **with curriculum** for students to build over **6-week period**
- Leading **team of 10** to host online bootcamps, workshops, and talks to help students learn software engineering

## projects | hackathons: 13

**Don't Back Out | 1st Place @ IEEE Projects Competition | IOT + Android + Java + Arduino + Bluetooth**

[github.com/daniel-d-truong/Don-t-Back-Out](https://github.com/daniel-d-truong/Don-t-Back-Out)

- Built **wearable slouch detector** connected with **mobile app** to help users identify their slouching habits
- Created a **responsive mobile application** based on input received through **Bluetooth** technology

**Covid Daily | Personal Project | Flask + React + Typescript + Web Scraping | [coviddaily.info](http://coviddaily.info)**

- Leveraged **COVID-19 big data & news API** to create mapping of countries' COVID status & relevant news

**Commonwealth | 3rd Place @ CitrusHacks 2020 | IOS + Swift + TensorFlow + Computer Vision**

[github.com/daniel-d-truong/commonwealth](https://github.com/daniel-d-truong/commonwealth)

- Developed app to find **"environmental & social cost"** of grocery items amidst COVID pandemic in real time

## skills

**Languages:** Javascript/Typescript, Python, Swift, Java, C#, C, C++, Bash, R, HTML/CSS

**Technologies:** Node.js, React, Express.js, MongoDB, Flask, .NET, Angular, Docker, Azure, Web APIs, Firebase, iOS

**Workflow:** Git, Github, Continuous Integration/Deployment, Kanban, Agile, Unit/Integration/Acceptance Testing

## education

**University of California - San Diego (UCSD) | Expected Graduation: Jun 2022**

**Computer Science (B.S.) + Entrepreneurship Minor | GPA: 3.7**

**Classes:** Artificial Intelligence: Search & Reasoning, Software Engineering, Deep Learning, Recommender Systems, Design/Analysis of Algorithms, Product Marketing and Management, Statistical Methods

**Organizations:** ACM, ACM Hack, IEEE, SD Hacks (Media Lead), Table Tennis Club, Triton Smash
